Program Performance Report Department of Insurance Agency 280

Program Description:

To equitably, effectively and efficiently administer the Idaho Insurance Code.

Program Results and Effects:

As noted previously, the Department has developed a single person analyst approach to financial/regulatory monitoring which we believe enhances departmental responsiveness by maintaining a higher level of ongoing knowledge of company condition and reducing dependence on dated information received from periodic financial examinations. This past year, despite two new analysts being hired, the Department was able to monitor deteriorating financial situations in several of our domestic companies early enough that allowed the Director to work with the companies and to take regulatory steps designed to cure the financial crisis without having to pursue liquidation.

The company admission process of the Department continues to be hampered by the policies of outside agencies when worker's compensation authority is requested as one of the lines of business. In spite of these events, the Department licensed/listed/approved 81 entities to do business with 71 approved in less than 90 days and 41 of the 81 being approved within 30 days. The Department's financial approval of these 81 entities was accomplished within 90 days (in all instances) and with 53 being done in less than 30 days. The company admission section began the fiscal year with 12 applications pending and ended the year with 7 applications pending.

The Department approved additional lines of business authority for 21 companies that wanted to expand their writing authority in Idaho. Of the 21 approved, 17 were done within 90 days and with 7 of the 17 being approved within 30 days. The Department gave financial approval to all 21 within 60 days, with 15 of those approvals being given within 30 days. The Department began the fiscal year with 10 applications pending and ended the fiscal year with 4 pending applications.

The Department's premium tax section had gross collections for the fiscal year of over \$58 million. Of this amount, approximately \$12 million was distributed to the Firemen's Retirement and the Refund Account. The remaining \$46 million was transferred to the General Fund and was 2.55% greater than projected.

The producer licensing section has experienced an average of a five percent increase in the number of licensed agents for the last four consecutive years. In spite of this growth, automation and procedural changes have helped the same number of personnel keep up with this increased workload. Further simplification, such as eliminating appointment renewals, should help the section handle the increased future workload with minimal added personnel. The agent licensing section currently maintains licenses for approximately 21,000 insurance producers located in jurisdictions throughout the United States and foreign countries.

Federal law now mandates that states have uniformity or complete reciprocity in their licensing laws by November of 2002. Future changes in Idaho producer licensing laws that will bring us into compliance with federal requirements will also significantly reduce the administrative requirements for licensing in Idaho.

The Idaho code mandates that insurers and their representatives operate within the parameters of the law. The consumer affairs division is a resource for both the industry and the public to have questions answered regarding those laws and how they apply. In addition, when a question of proper compliance exists regarding the law, the section investigates and makes a determination as to whether a violation exists and takes steps to resolve such questions in an expedient manner for the consumer.

Insurance fraud in the United States and in Idaho continues to cost the insurance-buying public in terms of higher premiums. The aggressive pursuit to curb the increase of this type of crime is one of the objectives of our investigations section. This objective is being accomplished through cooperative investigative efforts with the industry and local law enforcement bureaus and through public education.

**Department of Insurance - State Fire Marshal
Agency 280**

Program Description:

Participates in and coordinates an integrated statewide system designed to protect human life from fire and explosion through fire prevention and investigation.

Program Results and Effects:

The State Fire Marshal's ability to adopt new codes and train local officials in their use will reduce the losses citizens are subject to from fire. Providing limited manpower to assist local authorities with inspections and plans reviews aids small communities with volunteer or limited paid departments that are unable to complete these tasks. All inspections and plans reviews are done at the request of local authorities. The collection and tabulation of fire data are vital to establish trends and code deficiencies. The investigations of fires and the prosecution of arson cases in small communities serve as a deterrent. All investigations are done at the request of local authorities.

Worker's Compensation Offset - All worker's compensation insurers must pay a 2.5% premium tax on all business written to the Idaho Industrial Commission (Idaho Code, Section 72-523). Insurers are allowed to offset 1.3% of this tax against the worker's compensation tax liability to the Department of Insurance (Idaho Code, Section 72-523). The offset cannot be allowed against any other lines of insurance.

Idaho Life & Health Guaranty Association Offset - A premium tax offset is allowed for all Class B and Class C assessments. Insurers may take any portion of the assessment as an offset in any of the five years following the year the assessment is paid. Effective 1-1-94, offsets are limited to **20%** of each assessment paid after this date. An allowable offset, or portion thereof, not used in any calendar year cannot be carried over or back to any other year. The total offsets cannot exceed the tax liability or total assessment paid. [Idaho Code, Section 41-4314(1)].

The annual premium tax liability is based on calendar year premiums written. Premium taxes are prepaid in quarterly installments based on prior year's premiums and current year's tax rates. The installments are as follows: 60% due June 15, 20% due September 15, and 15% due December 15. The reconciliation payment is made on March 1 of the next year.
