

## RECERTIFICATION EXERCISE INSTRUCTIONS

The recertification exercise will consist of 15 **True** or **False** questions. These questions will be randomly selected from a bank of over 100 questions based on the 2006 International Fire Code. Your fire inspector number is required to access the recertification exercise. Please contact your chief or the Idaho State Fire Marshal's office to obtain your Fire Inspector number.

You must indicate your answer of true or false and input the code section that justifies your response. When the answer to a question includes a subtitled item or an exception, **just list the primary code section as your answer.**

*Example: If the answer is found in item 5 of Section 105.5, just input 105.5 as your answer.*

*If the answer is found in exception 1 of 803.1, just list 803.1 as your answer.*

This will assist our online testing system to give you immediate and correct feedback on your efforts. If you include "exception" or "item" in your code answer, the system will score it as an incorrect response.

When you log in, a page will appear with links to 15 questions. You will have to click on each button to view the question. Once the question has been answered and you click submit, the system will automatically save your answer. This was designed for your convenience in case of an emergency call. Please note that if you view the questions and don't answer them, the system may reassign different questions when you log in again.

Once you've successfully passed the exercise, print the page with your results, sign it and attach it to your application. Turn your application with your results to your fire chief or fire marshal and they will submit them to our office.

If you did not pass the recertification exercise, you will have to wait 24-hours to try again.

Once your application has been processed, your 2009 Fire Inspector card will be mailed to your fire chief or fire marshal.

If you have any questions concerning:

Log in, information updates, or system errors, please contact  
Nesha Pabst at (208) 334-4370

If you have code questions or code clarifications please contact any of the  
Idaho State Fire Marshals.
